Section 1 Identification of the substance/mixture and of the company/undertaking

Product identifier:
Identification on the label/Trade name: SINOPEC Aqueous Urea Solution AUS 32
Additional identification: 60193388
Identification of the product: See section 3
Index Number: Not available
REACH registration No.: Not available

Relevant identified uses of the substance and uses advised against:
Identified uses:
Applied to trucks and buses equipped with the SCR, to reduce the content of nitrogen oxides in the exhaust gas.

Uses advised against:
Not available.

Details of the supplier of the safety data sheet:
Supplier(Manufacturer): SINOPEC LUBRICANT CO., LTD.
Address: No. 6 Anning Zhubang West Road, Haidian District, Beijing, P.R.China
Contact person(E-mail): csc.lube@sinopec.com
Telephone: 86-400-810-9886
Fax: 86-10-82410856

Emergency telephone Number:
86-400-810-9886 Only available during office hours (8:30a.m.-17:30p.m. Beijing Time Zone)
Available outside office hours? YES ☑ NO ☒

Section 2 Hazards Identification

Classification of the substance/mixture:
GHS Classification Not classified

label elements:
Hazard Pictograms: No hazard pictogram is used.
Signal Word(S): No signal word is used.
Hazard Statement: Not applicable.
Precautionary statement: Not applicable.

Other hazards:
Not available.

Section 3 Composition/information on ingredients

Substance/Mixture: Mixture

**Section 4 First aid measures**

**Description of first aid measures:**

In all cases of doubt, or when symptoms persist, seek medical attention.

**In case of inhalation:**
Move exposed person to fresh air and provide oxygen. Get medical attention if coughing or respiratory discomfort occurs.

**In case of skin contact:**
As a precaution, remove clothing and shoes if contaminated. Avoid prolonged or repeated contact with skin. Wash with soap and water to remove the material from skin. Get medical attention.

**In case of eyes contact:**
Wash eyes with water for 15 minutes. If irritation occurs, get medical attention.

**In case of ingestion:**
If large quantities of this material are swallowed, call a physician immediately. Do not induce vomiting unless directed to do so by medical personnel. Never give anything by mouth to an unconscious person.

**Most important symptoms and effects, both acute and delayed:**
The product is not classified as harmful to human health effect.

**Indication of any immediate medical attention and special treatment needed:**
If skin irritation or rash occurs, get medical advice/attention.

**Section 5 Fire-Fighting measures**

**Extinguishing media:**

**Suitable extinguishing media:**
Products contain large amounts of water, so there is no limit to the types of fire extinguishing medium, the choice of its surrounding area environment should be considered. Spray, carbon dioxide, foam, dry chemical and water fog.

**Unsuitable extinguishing media:**
Not available.

**Special hazards arising from the substance or mixture**
Incombustible, fire could cause the release of harmful vapors. When fire may produce monoxide, nitrogen dioxide, nitrogen oxide and other organic matter such as cracking of typical combustible components.

**Special fire fighting methods and special protective actions for fire-fighters:**
Must wear breathing apparatus when close to the ignition point in confined space.

**Section 6 Accidental release measures**

**Personal precautions, protective equipment and emergency procedures:**

**For non-emergency personnel:**
Cut off the source of fire, immediately contact the workers, and keep other person stay in safe areas. As much as possible cut off the source of leakage, prevent it access to sewers, drains, water. Comply with relevant fire procedures, and refer to chapter 8 of the safety data sheet.
For emergency responders: Wear an appropriate NIOSH/MSHA approved respirator if vapor is generated.

Environmental Precautions: Do not allow material to be released to the environment without proper governmental permits.

Methods for Containment and Cleaning up: FOR LARGE SPILLS: Remove with vacuum truck or pump to storage/salvage vessels.

FOR SMALL SPILLS: Soak up residue with an absorbent such as clay, sand or other suitable material. Place in non-leaking container and seal tightly for proper disposal.

Reference to other sections: See Section 7 for information on safe handling.

See Section 8 for information on personal protection equipment.

See Section 13 for information on disposal.

Additional information: Not applicable.

---

**Section 7 Handling and storage**

**Precautions for safe handling:**

**Protective measures:** Avoid long or repeated contact with skin, thoroughly clean after contact. Prevent damage of packaging and container, loading and unloading lightly when moving. Operators must receive special training; strictly abide by the operation procedures. To avoid oxidizing reaction. Avoid contact with the strong acid, hydrochloric acid, acid anhydride and chloroform ate. Equipped with corresponding quantity of fire equipment and emergency handling equipment. When loading and unloading of 200 liters of bottled products, should wear protective shoes. Empty containers may remain inside.

**Advice on general occupational hygiene:** Do not eat, drink and smoke in work areas. Wash hands after use. Remove contaminated clothing and protective equipment before entering eating areas.

**Conditions for safe storage, including any incompatibilities:**

Keep container sealed, do not store in open or unlabeled containers. Store in a cool, dry place with adequate ventilation, keep away from strong oxidizer, sunlight, heat and combustible. Storage temperature is -5°C~25°C. Store in original container.

**Specific end use(s):** Not applicable.

---

**Section 8 Exposure Controls/Personal Protection**

**Occupational exposure limits**

No exposure limits noted for ingredient(s).

**Exposure controls:**

**Appropriate engineering controls:** Use in a well-ventilated area.

**Individual protection measures, such as personal protective equipment:**

**Eye/face protection:** If may splash, use safety goggles please.

**Hand protection:** Using the resistance to chemical corrosion protective gloves, such as the use of PVC material gloves. Contaminated gloves timely replacement. Thoroughly clean with soap and water after operation.

**Body protection:** Under the condition of normal use, in addition to ordinary work clothes, do not need special skin and body protection equipment. In case of splash, according to the actual situation of the workplace to choose suitable, non-permeable safety clothing and safety shoes, recommended material is NBR.

**Respiratory protection:** Don't need to wear respiratory protective equipment under the condition of normal use. If engineering controls do not maintain airborne concentrations to a level
which is adequate to protect worker health, need to choose to conform to the requirements of the relevant laws and regulations of respiratory protection equipment. Specific content consult the supplier of respiratory protection equipment.

**Thermal hazards:**
Wear suitable protective clothing to prevent heat.

**Environmental exposure controls:**
Avoid discharge into the environment.
According to local regulations, Federal and official regulations.

---

Specific gravity: Not available

Section 10 Stability and reactivity

Reactivity: The substance is stable under normal storage and handling conditions.
Chemical stability: Stable at room temperature in closed containers under normal storage and handling conditions.
Possibility of hazardous reactions: May react with strong oxidizing agents.
Conditions to avoid: Incompatible materials. Extreme heat and high energy sources of ignition.
Incompatible materials: Strong oxidants.
Hazardous decomposition products: When fire may produce monoxide, nitrogen dioxide, nitrogen oxide and other organic matter such as cracking of typical combustible components.

Section 11 Toxicological information

Toxicokinetics, metabolism and distribution:
Non-human toxicological data: Not available
Information on toxicological effects:
Acute toxicity:
LD50(Oral, Rat): >15000mg/kg
LD50(Dermal, Rabbit): Not available
LC50(Inhalation, Rat): Not available
Skin corrosion/Irritation: Not classified
Serious eye damage/irritation: Not classified
Respiratory or skin sensitization: Not classified
Germ cell mutagenicity: Not classified
Carcinogenicity: Not classified
Reproductive toxicity: Not classified
STOT- single exposure: Not classified
STOT-repeated exposure: Not classified
Aspiration hazard: Not classified

Section 12 Ecological information

Persistence and degradability: Expected easily biodegradable.
Bioaccumulative potential: Low potential for bio-accumulation.
Mobility in soil: Weaker soil adsorption.
Results of PBT&vPvB assessment: Not available.
Other adverse effects: Not available.
Section 13 Disposal considerations

Waste treatment methods: The material should be disposed of by incineration in a chemical incinerator in compliance with national and regional requirements.

Product / Packaging disposal: If empty container retains product residues, all label precautions must be observed. Return for reuse or dispose according to national or local regulations.

Section 15 Regulation information

Safety, health and environmental regulations specific for the product in question

Controlled Narcotic Drugs (Misuse of Drugs Act, First Schedule, Part I, II & III)
Not regulated.

Controlled Specified Drugs (Misuse of Drugs Act, Fourth Schedule)
Not regulated.

Not regulated.

Chemical Weapons Prohibition (Act)
Not applicable.

Environmental Protection and Management (Hazardous Substances) Regulations
Not applicable.

Environmental Public Health Act
Not applicable.

International regulations

Montreal Protocol
Not applicable.

Stockholm Convention
Not applicable.

Rotterdam Convention
Not applicable.

Kyoto protocol
Not applicable.

Basel Convention
